COVID-19 information

In this crisis period caused by the spread of COVID-19, Dubly Transatlantique Gestion's priority is to **protect all employees and their relatives** and to **maintain business continuity**.

Based on these priorities, Dubly Transatlantique Gestion's Crisis Committee is taking all necessary measures, in close collaboration with the managers and crisis units of the Banque Transatlantique Group.

In order to slow the progression of the virus and limit the number of contacts, we have decided to duplicate all the management teams (advisory, discretionary and collective management) and to implement working from home.

All our managers can be reached via their usual phone number or secure email address and are available for telephone meetings.
